

**Sacramento House Rabbit Society
Foster Program Description**

Thank you for your interest in saving and fostering a rabbit! Here's a short description of what to expect if you decide to foster a rabbit with SHRS.

Your Role	SHRS Support
<p>You'll be the rabbit's caregiver. Rescued rabbits need time to acclimate and attention from you.</p>	<p>We pair you up with a "foster advisor." Your foster advisor can answer questions about your foster rabbit's care, housing, etc.</p> <p>You'll also join our email distribution list of others who foster rabbits.</p>
<p>1. Dedicate space in your home for your foster rabbit</p> <ul style="list-style-type: none"> ○ Allow approximately 4 feet x 4 feet of space for a pen. Pens come with panels that are two feet wide. You will want to be able to open one panel to let your foster bunny out for exercise/play time. 	<p>We discuss options for you to consider so that you can decide on the best housing situation for your home.</p>
<p>2. Bunny-proof the areas of your home that your foster rabbit will have access to</p> <ul style="list-style-type: none"> ○ This may include using cable management to protect electrical cords and moving furniture. ○ You may also want to block off rooms using baby gates. 	<p>We advise on how to protect your home and your foster rabbit. We've been there and seen the range of shenanigans rabbits can get up to!</p>
<p>3. Allocate time to interact with your foster rabbit.</p> <ul style="list-style-type: none"> ○ Plan daily time for the rabbit to hop around outside of the pen ○ Ideally, you should plan time in your day to sit on the floor with the rabbit 	<p>We advise on toys and rabbit behavior.</p>

Your Role	SHRS Support
<p>4. After the initial supply we provide, you'll need to provide food for your foster bunny. This isn't a lot of money. We estimate it could be around \$20 per month.</p>	<p>We supply a pen, litter box, food bowl, water bowl and initial supplies of pellet food, hay and litter.</p> <p>We provide you with sources for pellet food, hay and litter. We also advise on dietary needs.</p>
<p>5. If your foster rabbit needs medical care, you would need to transport your rabbit to one of our approved veterinarians.</p>	<p>Your foster advisor would provide guidance on seeking veterinary care.</p> <p>SHRS would cover all medical expenses.</p>
<p>6. Plan time in your schedule to attend our adoption day events on the second Saturday of each month.</p>	<p>We can help screen potential adopters.</p>
